Twitter Bot Statistics

STEP BY STEP

Step 1: Search keywords

Search key words to pick the type of audience you would like your twitter bot to engage in.

Step 2: Pick the action that you want the bot to do.

Pick the number of tweets and/or accounts you would like to engage with, then pick the action that you would like to be done whether it is replying, following, liking, or retweeting.

Step 3: Click submit

Step 4: Sit back and watch the bot engage with your intended audience

While we use our twitter bot to tweet out jokes, there are many functions that it can be used for tasks such as advertising for a business, or warning of a natural disaster such as an earthquake.

What the Bot has to offer!
